Index

A

Acid-base balance, postdialysis, of patients with chronic uremia, 567
Acidosis, respiratory, treatment of, with potent carbonic anhydrase inhibitor (dichlorphenamide), 603
ACTH and cortisone, encephalopathy associated with trichinosis treatment with, 546
Adams, E. K., *see* Mason, W. R., Jr., 447
Age and schedule of vaccination, effect of, upon antigenic response: Asian influenza vaccine, 290
Ahern, A. M. *see* Zuckner, J., *et al.*, 460
Aircrew selection based on physiologic and psychologic criteria, its relationship to system of: unified concept of tolerance to physical stress, 400
Albumin, *in vivo* degradation of, in man as measured with iodinated human serum albumin, effect of fever and corticotropin on, 65
iodinated human serum, effect of fever and corticotropin on *in vivo* degradation of albumin in man as measured with, 65
Amanozine (W-1191-2), triazine diuretic compound, 32
Anemia, sickle cell, oxyhemoglobin dissociation curve in, 225
Angiocardiographic features of patent foramen ovale, 434
Angiocardiography: aid for diagnosis of bronchogenic carcinoma, 147
Anorexigenic agents, effectiveness of certain, 692
Antigenic response, effect of age and schedule of vaccination upon: Asian influenza vaccine, 290
Antihypertensive action of antimicrobial agent, furazolidone, 736
Antikidney sera, avian, mechanism of experimental glomerulonephritis produced in rabbits by, 767
Antimicrobial agent, furazolidone, antihypertensive action of, 736
Aortic or mitral stenosis, atypical pressor responses to upright posture and exercise in, 168
Arrhythmias and mephentermine, 300
Artery, coronary, disease, degree of unsaturation of plasma lipid fractions in, 362
Asian influenza vaccine: effect of age and schedule of vaccination upon antigenic response, 290
Atherosclerotic individuals, effect of heparin upon total oxygen consumption of, 175
